The Riviera Ligure DOP "Lucinasco" is obtained from the olive groves of the village of Lucinasco, located on the hills of the backcountry of Imperia, in the Riviera Ligure di Ponente. Lucinasco is situated at an altitude of about 500 metres above sea level. It is an area renowned for the extraordinary quality of its oils.

Oil is cold extracted in our mill with two-phase technology and controlled process temperature.

Fine and elegant

Mosto Oro is the pride of our Company.

It is obtained from Taggiasca Cultivar olives grown in our groves and by other olive growers in the province of Imperia. Produced in our mill by cold extraction with two-phase technology at controlled temperature. With a delicate fruitiness, it is an ideal dressing for enhancing the flavour of dishes without obscuring it.

Extra Virgin Reûza arises from a union between two high-priced, very different, Italian cultivars: the Biancolilla Olive and the Taggiasca Olive.

Reûza is a high-quality product: it combines the aromatic notes of Biancolilla with the sweetness of Taggiasca.

The result is surprising and very pleasant.

The name "Reûza", Rosa in Ligurian dialect, refers to a scented oil, just like a flower.

MOSTO ARGENTO

Extra Virgin Olive oil, a blend of Taggiasca and Peranzana olives

A great oil arising from the union between Taggiasca olives and Peranzana olives: the first gives the oil its sweet and flavour flavour, the second, an extra note of vivacity

00011

Olive Oil Plus is obtained by mixing refined olive oil with approximately 30% extra virgin olive oil (compared to approximately 12% contained in normal olive oil). It is therefore tastier and suitable as a dressing for those who find Extra Virgin too strong, and as a finishing touch to any dish.

Olive oil - composed of refined oils and virgin olive oils

A simple and genuine product, suitable for all cooking needs, and most especially frying. It is also the ideal dressing oil for those who like extremely delicate seasonings.
