330ml Art.no: 7001030

#### MUSTLY® YUZU, GINGER

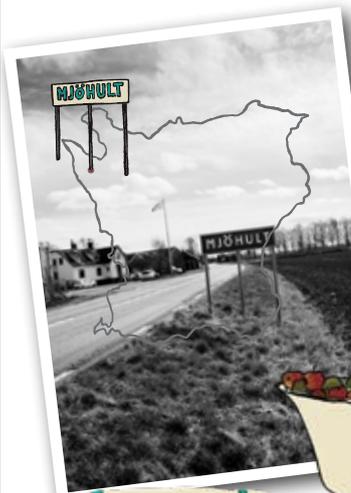

Sparkling coldpress naturally flavoured with yuzu & ginger.

330ml Art.no: 7001060

# From apples to Kullamust

Since 1929, we have proudly maintained and developed the tradition of making pure apple juice. The process is still the same:

**PRESSING AND WASHING**  
The selected apples are washed and pressed.

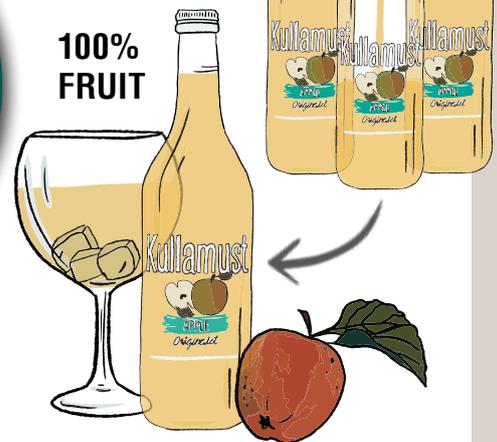

**FILTRATION**  
The fruit juice is filtered to a clear must. The must is pasteurised (heated) to give it its long shelf-life.

**BOTTLING**  
The hot must is bottled in glass bottles and sealed with a screw cap.

The apple leftovers that remain after pressing are converted to biogas - nothing is wasted. As a result, you can find our apple snufkins powering the local city buses!

**100% FRUIT**

**SELECTED APPLES**  
We taste and smell the fruit ourselves to find the perfect balance of acidity, sweetness and fragrance, which is different in all apple varieties.

## WE GIVE APPLES A SECOND CHANCE

We give every apple a second chance. Every year, we receive several hundred tonnes of fruit that would otherwise be thrown away or removed through sorting.

**KULLABYGDENS MUSTERI AB**
