HOKKAIDO PREMIUM DESSERTS

Salt-kissed breezes Hokkaido's coastal pastures lush,
growing nutrient-rich grass that helps our cows thrive.

The "Premium Milk" they produce - nurtured
by both sea and land - is crafted into an exceptionally indulgent dessert.

MADE WITH

[®]Used in the cream base.

What is Premium Milk

Only milk that meets strict quality standards earns the title “Premium”. It begins with high-quality raw milk solids. Premium Milk must also meet rigorous criteria for hygiene, low bacteria count, and even the health of the cow. Only milk that passes all these benchmarks is worthy of the name Premium.

	Premium Milk	Standard milk
Milk fat content	3.5%	3.0%
Non-fat milk solids	8.5%	8.0%
Bacterial count	30,000 or less per mL	50,000 or less per mL ※

※ Unless refrigeration below 10°C is required.

About the Origin of Our Raw Milk

Sarobetsu is known as a dairy region with expansive, premium grasslands. The cows are carefully raised while feeding on rich, nutritious grass.

SAROBETSU

EBETSU

Our partner company in Ebetsu City is also engaged in the production of organic milk and A2 milk.

HOKKAIDO

KONSEN

This region encompasses both Nemuro and Kushiro in eastern Hokkaido. It is known as Japan's leading area for raw milk production.

Product Information

HOKKAIDO PREMIUM ICE CREAM

This luxuriously milky ice cream captures the velvety richness and gentle sweetness of Premium Milk. Crafted to please kids and adults alike, its silky texture makes it the perfect addition to affogattos and floats.

Ingredients

Water, cream, sugar, concentrated milk, skim milk powder, sweetened condensed milk, sweetened egg yolk (egg yolk, sugar), stabilizers (glucose, glycerol fatty acid esters, guar gum, tamarind seed gum, microcrystalline cellulose, locust bean gum, carrageenan).
