■生産・製造工程アピールポイント

※農産品の場合は栽培面積・年間収穫量なども記載
Pineapples are sourced from contracted farms in Thailand and processed under controlled conditions to ensure stable quality and food safety. The manufacturing process includes raw material inspection, washing, peeling, slicing, controlled dehydration, and hygienic packaging. Quality control is implemented throughout the production process to ensure consistency, traceability, and suitability for export markets. The factory is capable of large-scale production to support stable supply for international customers.
