Product Characteristics			Use Scenes (Usage • Recipes)																				
Special olive oil obtained exclusively through mechanical cold extraction processes. Agrinova is a cooperative of agricultural producers operating with respect for legality and the environment in the Caulonia area, located on the Ionian coast of the Reggio Calabria province, a territory traditionally dedicated to citrus and olive cultivation. The cooperative carefully oversees the entire supply chain, from olive growing to processing. The tomato is minced, past and refined, the juice obtained is concentrated under vacuum at low temperature, pasteurized and packaged in a 420g glass jar.
