

# s o d a   w a t e r s

Østerberg's soda waters are 100% natural & organic, made with a high fruit content and no added sugars – only sweetened with fruit juice.

The soda waters offer a fresh and fruity taste experience and explores a world of flavour palates. The flavours range from Nordic fruits like rhubarb and elderflower to Asian fruits like ginger and passion fruit.

Østerberg's refreshing soda waters are **the perfect addition** to the café table or your fridge at home.

## berries

### sweet & round

Raspberries & blackcurrants come together in this red soda water to create a deep, fruity & sweet taste experience. The Østerberg berries soda water introduces a round and refreshing palate – reminding one of berry picking in the garden.

- Fruity, fresh and round flavour.
  - Contrasting and full-bodied.
- 

## citrus

### acidic & fresh

Østerberg citrus soda water offers a fruity taste experience of orange, lemon and lime. The soda water is based on real citrus fruit juice making the taste fragrant and slightly more acidic than traditional citrus soda waters. With no refined sugars, the balanced citrus flavour is enhanced.

- A refreshing sparkling citrus drink.
  - The taste of real citrus fruits.
- 

## elderflower

### intense & floral

Elderflower is a Danish flavour classic and is especially popular around the summer time, when the flowers are blooming. The elderflowers are extracted at the Østerberg family's fruit manufacturing plant on the Island of Funen, creating the best foundation for the elderflower soda water.

- The taste of Denmark.
  - Sharp, intense & floral flavour notes.
-

---

## ginger

### edgy & sharp

The Østerberg ginger soda offers an intense and sharp flavour profile – with its characteristic ginger flavour, it stands out from the other soda waters. The ginger soda is perfect and refreshing on its own or the perfect ingredient in a cocktail.

- Intense flavour profile.
  - Leaves a warming sensation.
- 

## kola

### natural & fresh

We are bringing back the kola nut in cola soda waters. Original colas were made with kola nut because of the energizing effect it has. Today kola nut has been phased out of most brands. Østerberg is bringing it back through our kola nut extract.

- New take on a classic.
  - The real kola nut taste.
- 

## passion

### fresh & fruity

It is within the Østerberg foundation to explore the many exciting flavours of the world - which this passion fruit soda is a prime example of. The Østerberg passion fruit soda is lively, tropical and round and is one of the results of Østerbergs long-time business adventure in Vietnam.

- Tropical flavour profile.
  - Passion fruit sourced from Vietnam.
-

## rhubarb

**fresh & acidic**

Rhubarb has, with its acidic and slightly green flavour, become a popular ingredient in the Nordic cuisine within the last couple of years. The Østerberg sparkling rhubarb soda is a refreshing and elegantly tasting soda water – containing a spectacular 85% fruit.

- Scandinavian favourite.
- Intense but balanced flavour notes.
