

s p a r k l i n g w a t e r s

Østerberg sparkling waters are in our opinion essentials for any café or dining experience.

Refreshing water from the Danish island of Funen, turned into elegant sparkling water by carefully carbonating the water.

We think natural & high quality tastes the best – therefore we add real lemon juice to our sparkling waters. This generates a very natural and aromatic lemon flavour, which is exactly how a sparkling water with lemon should taste.

Because water is so essential, the sparkling waters are offered in two different sizes, 250 ml and 750 ml.

b o t t l e s

Our small waters serves one.

Perfect with a meal or to take on the go!

sparkling water

natural & refreshing

The water has been carbonated carefully in order to create gas, which is light and mild. The sparkling waters are a must-have at any cafe or restaurant table.

- Carbonated.
- Without any additives besides carbon dioxide.

sparkling water with lemon

acidic & refreshing

Østerberg sparkling waters with lemon actually contain real lemon juice – the taste is clean, natural and aromatic, which is the best way to enjoy a refreshing sparkling water with lemon.

- Carbonated.
- Contains real lemon juice.
