

# Sprouted Flaxseed Ingredients

Easy to digest. Safe and reliable sprouted flaxseed.

▶ For Professional / Ingredient Use (BtoB)

▶ Plant-based / Health-focused

**Selected as an ingredient for plant-based and health-focused products**

Organic ingredients / Sprouted / Low-temperature processing / SOS-free

For food manufacturers, bakeries, restaurants, and prepared foods

## What is Natshell Sprouted Flaxseed?

Since 2017, Natshell has been developing, manufacturing, and supplying sprouted flaxseed ingredients. Through our proprietary sprouting and processing methods, we achieve both:

- Improved digestibility
- Safety and nutrient retention

We offer a versatile sprouted flaxseed series suitable for professional and ingredient use.

## Key Features for Professional Use

- No additives / No salt / No oil / No sugar (SOS-free)
- Cyanogenic compounds removed through the sprouting process
- Low-temperature processing preserves omega-3 fatty acids and nutrients
- Made with certified organic brown flaxseed
- Available in various forms: whole seeds, crushed, or cooked
- Suitable for direct use or as a processing ingredient

**Texture, thickness, and natural nuttiness enhance both appearance and nutritional value.**

## Usage Examples

Bakery & Confectionery

- Bread
- Muffins
