We offer a holistic approach to wellness by providing pure, additive-free products using premium Australian ingredients and lab-tested quality to support overall health, from energy and immunity to mental clarity and gut health

The Australian Root

Healthyroo is a proudly Australian brand dedicated to quality, transparency, and affordability in health products. Our mission is to redefine wellness by creating products free from fillers or shortcuts, giving Aussies confidence in what they're putting into their bodies. Every Healthyroo product is crafted with care, using the finest ingredients and an in-house process to ensure excellence from start to finish. Whether it's a clean protein shake or a reliable supplement, we're here to support you on your health journey with products you can trust

Meet the Founders

G'day guys we're Dibya and Darshan, the co-founders of Healthyroo. Our journey began over 23 years ago in Sydney, where our family ran Baker's Delight bakeries.

Growing up around freshly baked bread, we learned firsthand the importance of quality ingredients, dedication to craft, and the joy of creating food that truly tastes great. From a young age, we developed a deep love and respect for wholesome, honest tood.

When we realized that many "health" products on the market weren't living up to their promises, we knew we had to make a change. Armed with decades of experience and a shared passion for better tood, we set out to create products that deliver on quality, integrity, and taste.
