

QUALITY CANNED FRUIT PRODUCTS

Greek food product

FROM *Vision* TO REALITY

Since 1971, **KRONOS** has established itself, as the largest canned fruit producer in Europe and one of the top five worldwide. With over five decades of expertise, we have built a strong presence of exports in over 90 countries, leading to an annual turnover between 95 - 100 million euros. During the peak season, our factory operates at full capacity, processing 1.000 tons of fruit per day and over 60.000 tons annually, supported by the unwavering commitment of our 250 permanent and 1.000 seasonal employees.

Our Company is located in Mavrovouni-Skydra, in Central Macedonia, at a short distance from the seaport and airport of Thessaloniki, covering an impressive land of 300.000 m², with 100.000 m² dedicated to production and storage facilities. In addition, **KRONOS** has invested in the construction of a 4.000 m² can manufacturing facility, enabling the production of cans in all packaging formats, fully adapted to the company's needs and reinforcing its autonomy and flexibility in packaging.

Social RESPONSIBILITY & CERTIFICATIONS

Renewable Energy: In 2008, Kronos founded KRONOS SUN ENERGY S.A., establishing a 1.5MW photovoltaic park, one of the largest renewable energy projects in Northern Greece. In 2013, a 0.8MW rooftop photovoltaic installation was implemented, further strengthening KRONOS S.A.'s commitment to sustainability and enhancing its energy self-sufficiency.

Biomass: Kronos maximizes resource efficiency by using peach pits core as biomass fuel, providing an alternative energy source that covers over 80% of the total energy demands. The remaining energy needs are met by the use of natural gas.

Wastewater Treatment: Kronos SA is committed to sustainable water management through its fully operational wastewater treatment plant, which is set to triple its capacity by 2026, optimizing resource use and environmental impact.

Steam Peeler Innovation: Installation of a 16,000 kg/h natural gas steam boiler and new-generation steam peelers directly supplied by the steam units. This innovation eliminates caustic soda, reduces the environmental footprint, and ensures smoother WWTP operation.

Social Contribution: Kronos is committed to making a positive impact on society by integrating social responsibility into our core business practices and fostering a culture of sustainability and ethical conduct.

Quality & Certifications: Focused on safety and quality by applying a full quality control system within the production process. Kronos is certified by respected internationally acknowledged certification bodies.
