Product Characteristics		Use Scenes (Usage · Recipes)	
<p>Lone Pine Eucalyptus Gin is a premium Australian gin created in partnership with Lone Pine Koala Sanctuary. It uses eucalyptus leaves harvested daily from the sanctuary's plantations, first selected for koala feed, with the remaining leaves repurposed through distillation. This closed-loop process reduces waste and directly supports wildlife conservation, with a portion of proceeds donated to wildlife and habitat protection.</p> <p>The gin is built on a clean, neutral spirit and distilled with Australian botanicals including eucalyptus, lemon myrtle, cinnamon myrtle, lavender and wattleseed. The result is a refined, contemporary gin with fresh eucalyptus lift, soft citrus notes and a balanced, savoury finish.</p> <p>Made in Brisbane in small batches, Lone Pine Eucalyptus Gin offers importers and venues a product with genuine provenance, a strong sustainability narrative, and clear differentiation for premium hospitality, retail and gifting markets.</p>		<p>Premium cocktails and highballs, signature serves for bars and hotels, tasting flights and gin experiences, luxury minibar programs, curated gifting and seasonal gift packs, collaborations with tourism and wildlife organisations, events, pop-ups and brand activations, retail storytelling displays focused on sustainability and provenance.</p>
