

You can't improve on what nature gives you

The ultimate in opulence

From the foothills of Mount Glorious in Australia to the Australian outback, our honey is sourced using only the most suitable sites to keep our bees. Hampson Honey ensures the best mix of wild subtropical flowers go into our honey to give it its distinct rich and bold flavour. Indulge in the best honey nature has to offer.

A happy hive delivers a healthy honey

Our motto at Hampson Honey is to keep the bees healthy and happy so that they produce the best quality honey. Our beekeepers select only the best sites to keep our beehives so we can ensure we eliminate exposure to pesticides and herbicides. We treat our bees with the love and respect they deserve; and by looking after our bees, they look after us in return. The result: the most delicious, pure, raw 100% Australian honey you will ever taste.

No nasties

Free from any additives or preservatives, we believe you simply can't improve on the quality product the bees produce. We remove excess honey that the bees produce and bottle it — that's all.

Hampson H🐝oney

Product range

Indulge in the best honey the world has to offer. Try our range of honeys and honeycomb, sourced exclusively from Australia.

100% Australian raw honey — 500g easy squeeze

This is the practical choice for families as it comes with an easy squeeze bottle with a non-spill lid and the same delicious Hampson Honey taste.

100% Australian raw honey — 450g glass jar

Honey sourced exclusively from our hives located in Australia's vast countryside and bushlands.

100% Australian raw honey — 1kg tub

The perfect choice for the budget-conscious consumer who prefers to buy in bulk but still wants a high quality product.

100% Australian raw honeycomb — 350g

The freshest honey you can find — honey straight from the hive, still in its comb. Gorgeous honeycomb is the pinnacle of luxury.

100% Australian raw honeycomb — 170g

Honey in the comb, straight from the hive. Impress your guests with a touch of luxury by elevating your cheese platter at your next event with the natural sweetness of the honeycomb.

Who we are

Hampson Honey is a family owned and operated honey producer and packer which have delivered premium, pure, Australian honey since 2009. What makes us unique is that we produce and pack so we can ensure a high quality product from start to finish.

We also have a network of Australian beekeepers who supply us so we can ensure a consistent supply of 100% Australian honey.

100% Australian

When we say 100% Australian, we mean it! All our honey is proudly packed right here in Queensland at our HACCP certified facility.
