Minimum Case Delivery Unit	1 case	Case	Material	DB		Quantity per Case	
Order Lead Time	Within 3 days for wholesale market distribution		Size Weight	Dimensions (Length × Width × Height)	51.0	34.0	26.5
Storage Temperature Range	<input checked="" type="checkbox"/> Ambient <input checked="" type="checkbox"/> Chilled <input type="checkbox"/> Frozen <b>Lower temperatures, preferably close to 0° C, are suitable for maintaining freshness.</b>	Reference Price	<input checked="" type="checkbox"/> FOB <input type="checkbox"/> CIF Domestic Transportation Cost: JPY 250 per case (excluding tax) (Production area → Osaka Eastern Wholesale Market) May vary depending on other trade conditions	Price Validity Period	Month / Year		
Certifications / Approvals by Authorized Bodies (Product, Factory, etc.)	FDA Certification Obtained (February 16, 2024)						

Ingredients and Additives	Country / Place of Origin	Nutritional Components	Amount per Component (per × × / × × kcal)
Lotus Root	Aisai City, Aichi Prefecture		

Product Characteristics	Usage Scenes (Usage Methods / Recommended Recipes)
Lotus root features long internodes and a distinctive barrel-like shape. Approx. 800 g–1,000 g per piece. Lotus root is known for its chewy, mochi-like texture. Comparative component analysis with lotus root from other prefectures has proven its high polyphenol content. Due to proximity to the large Kiso River, the lotus root absorbs abundant water and nutrients, resulting in rich nutrient content. Available Shipping Period: From mid-August to the end of April	Lotus Root Hamburger Steak Mix grated lotus root with diced lotus root to retain a crunchy texture.  Simmered Dishes / Kinpira Its characteristic chewy texture makes it ideal for simmered dishes and kinpira-style cooking.
