Capital	Number of employees	Annual sales (FP)	
39 million yen	28	600 million yen	
Our history and business			
<p>MARUDAI greeted establishment of a business 100 years in 2019. We were established in 1919 as a natto manufacturer. In 1975,the Tofu manufacturer was founded,too. Since then,we produce and supply to our customers products which are made using the finest Japanese grown soybeans and pure water from the Mt.Akagi,Natto,Tofu,soymilk.</p> <p>We mainly manufacture products for commercial use such as restaurant kitchens, as well as for catalog mail order sales and other purposes. We started exporting Natto a few years ago, and currently export Natto to mainly Europe. In addition, our wholesale division works in cooperation with producers to provide high-quality frozen vegetables throughout Japan.</p>			
Management Philosophy			
Through "the food," we contribute to the health of our customers, contribute to society, and achieve the happiness of our employees.			
Message from Kazuyo Yanagisawa			
<p>"The soybeans you eat today is for your healthy tomorrow." As a believer in the idea that "Fermentation saves the planet," we would like to see Japan's traditional fermented food challenge the food cultures of the world.</p>
