Ingredients and Additives	The Place of Origin	Nutritional Facts	Ingredient Amount 1 Tea Bag (2g)
Organic Sunchoke	Kumamoto, Japan	Inulin (per 2g Tea Bag)	1.2g
		Caffeine (per 2g Tea Bag)	0g

Product Characteristics	Use Scenes (Usage · Recipes)
<ul style="list-style-type: none"> • Made in Kumamoto, Japan • 100% Organic Ingredient • Plant-based Tea Bag material (Soilon fibers) • Non-caffeine • Direct heat dried, double roasted via far infrared light • Pleasantly roasted aroma, and subtle sweetness 	The Inulin (a water-soluble dietary fiber) contained in Sunchoke is well extracted with hot water. Pour 400mL of freshly boiled water over one tea bag, let it steep for 5 minutes, and enjoy. We recommend drinking it before a meal or together with your meal.

■ Information of Quality Assurance

Inspection of Products	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Every production lot of dried chips, roasted chips, and powder are all subjected to total viable count (microbial load) test and moisture content inspection. All products undergo metal detection. Before packaging, staffs perform final quality inspection for taste, color, and texture.			
	Production Process	In accordance with the HACCP requirements defined under FSSC 22000 (ISO 22000), hazard analysis is conducted, an HACCP plan is established, and the plan is maintained under controlled management procedures.			
Hygiene Management	Employees	While ensuring compliance with HACCP, on-site training is conducted for OPRP and CCP implementation. PRP (Prerequisite Program) requirements are taught, and practical on-the-job training instruction (OJT) is carried out to reinforce environmental maintenance and hygiene management practices at the operational level.			
	Facilities and Equipments	In accordance with the PRP requirements, procedures for facility and equipment management, cleaning and washing, sanitation and disinfection, and employee training procedures are fully implemented. The 5S process is also used to operate the PDCA cycle for continuous improvement.			
Emergency Response	The Contact Points	Person in charge/Department in charge	Customer Support	Phone number	+81-487-833-391
	Documentation	Crisis management is carried out in accordance with FSSC 22000 requirements. The company is enrolled in Product Liability (PL) insurance to ensure rapid and accurate handling of nonconforming products and recall items. Lot management is implemented from harvesting through each manufacturing process, enabling full traceability from the field of harvest and/or from the product's best-before date.
