About VIVANT Wine

Where Temperature
and Terroir Meet

Superior Technology
for Exceptional Taste

Temperature-Controlled Wine Accessories

Built on 30+ years of semiconductor expertise, our cooling system ensures stable, precise wine service, preserving terroir and craftsmanship.

AI-Powered Wine Intelligence

Trained on millions of wine labels, expert notes, and regional systems, our proprietary AI model provides sommelier-level insights and personalized guidance.

Expert-Centered Innovation

Co-developed with sommeliers and wine experts, our features reflect real-world service rituals — combining precision with usability for both professionals and enthusiasts.

Smart Wine Service Ecosystem

Remotely control temperature and decanting via Bluetooth. The app syncs seamlessly with our devices to ensure every pour is served with precision and care.

Redefining the Wine Journey

Beyond temperature and decanting control, the VIVANT experience features blind tastings, curated pairings, and upcoming interactive tools designed to elevate every moment of wine discovery.

VIVANT Collection

VIVANT is our flagship premium collection, crafted for discerning wine connoisseurs and hospitality professionals. With precision-engineered devices and the integrated VIVANT App, we deliver a connected ecosystem that redefines how wine is served, paired, and discovered—ensuring every bottle is enjoyed at its optimal state.

TITAN

Portable Electronic Decanter Chiller

iF Design Award 2024 Winner

Titan combines stylish, tech-inspired design with intuitive function, elegantly aerating your wine while its cooling plate maintains the perfect serving temperature for the finest taste—now syncable with the VIVANT App for precise control and an enhanced tasting experience.

VENUS

Portable Electronic Wine Chiller

Designed for the most sophisticated wine lovers, this accessory is thoughtfully crafted using premium materials to achieve a sleek and compact design.

With 100% portability and temperature control technology, it ensures every bottle of your wine is enjoyed at its optimal level.

Precise temperature control - 8°C to 20°C

Removable lithium-ion battery - 2.5 to 4 hours

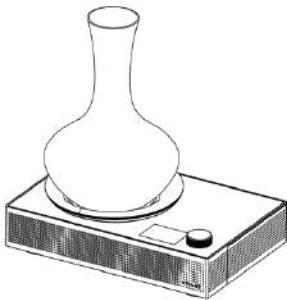

Semiconductor microchip & IR/ IC temperature sensor

In The Box	1 x Main Unit 1 x Charging Unit & Cable 1 x Rechargeable Battery 1 x Battery Charging Port 1 x International Warranty Card 1 x User Guide
Main Unit Measurements	Dimensions 164(W) x 245(D) x 232(H) mm *Chamber: Diameter 115mm
	Weight 2.2kg (4.85 lbs) *Including one rechargeable battery
	Battery Lithium-ion 18V, 5,500mAh, 99Wh Battery life: from 2.5 to 4 hours
	Voltage Input: 100-240V, 50-60Hz Output: 21.2V, 2.7A *Full-voltage
	Warranty (Main Unit) 24 months

VIVANT APP

Specifications
2026

Your Smart AI
Sommelier
Right in Your
Hands

Exclusively for Titan:
The App That Thinks
Like a Sommelier

Key features

Wine label scanner

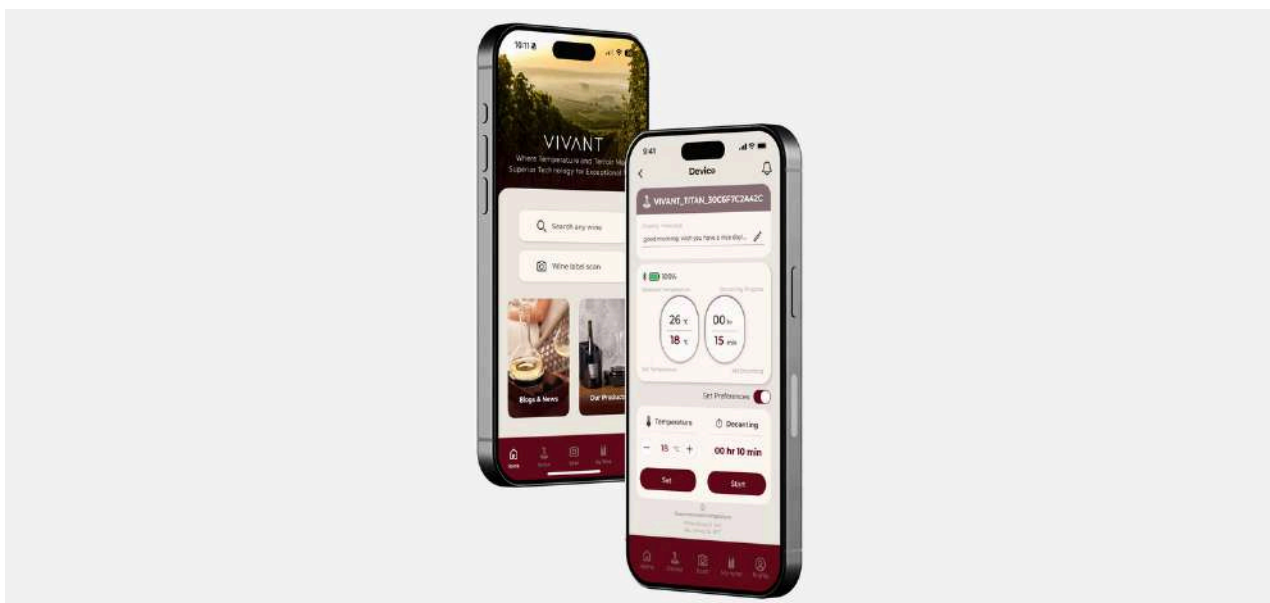

Scan any bottle to instantly access comprehensive wine information—grape variety, region, vintage, tasting notes, ideal serving temperature, decanting time, and food pairing suggestions—all in a single tap.

Smart device control

Control VIVANT's temperature-regulated devices directly from the app. Adjust chilling or decanting settings via Bluetooth to ensure every bottle is served at its peak.

Coming soon: social & interactive tools

Connect with the wine community through features like tasting note sharing, wine challenges, and curated discovery experiences designed to make wine exploration more engaging and fun.

VIVANT

petit VIVANT Collection

petit VIVANT brings the spirit of VIVANT into daily enjoyment—delivering our signature innovation and passion in a form made for everyday life. With temperature control across wine, beer, and spirits, petit VIVANT makes it easy for all drinkers to enjoy their beverages at the perfect temperature, anytime, anywhere.
