松合食品株式会社

product name	Drinking Unfiltered Vinegar with Amanatsu Orange
Contents	300ml
Reference Retail Price in Japan	907 JPY without tax
Ingredients	Rice vinegar (Kumamoto)、Sugar (raw sugar) 、Amanatsu juice
Best before	1 year

Made with 100% brown rice grown without pesticides or chemical fertilizers at our own farm in Kumamoto Prefecture.

This brown rice vinegar is slowly fermented and aged using the static fermentation method. We use 100% organic orange juice from Akune, Kagoshima Prefecture, to create a fruity, easy-to-drink vinegar beverage. Enjoy the fresh taste of juice squeezed with the peel intact.

The cloudiness is caused by acetic acid bacteria, which are essential for vinegar fermentation. While regular vinegar is filtered and sold clear, acetic acid bacteria are believed to boost immunity.
