

Through our more than 20 million Blue Agave plants, we have perfect traceability at every stage of the making process, from planting to delivering the product, sweetening, nourishing, and improving the lives of customers and consumers in more than 35 countries.

Our Organic Agave Syrup is available across a complete color scale, ranging from Light to Dark, offering versatility for a wide range of applications.

OUR AGAVE SYRUP SOLUTIONS

We have years of experience supporting our customers worldwide in the development of their brands, also partnering with them as the perfect ingredient for their products.
