STORM ÷ INDIA

OUR STORY

# THE LEGACY OF BELLAMY WOMAN

Dooley Crighton-Bellamy's journey began as a young mother on a Tasmanian farm, where she searched for pure, organic foods she could trust for her children. Unable to find what she needed, she founded an organic farm and baby food company built on uncompromising quality for mothers who wanted the very best.

Today, Storm + India, is an organic wellness brand inspired by her daughters. Together, Dooley, Storm and India Bellamy have created a modern brand focused on clean products for women and families who value natural wellness.

Operating from their 300-acre regenerative farm in Northern Tasmania, and South West France they embody the principles they promote, grounded in sustainability, nutrition, and care.

Each Storm + India product is a reflection of their passion for clean, delicious wellness solutions. Inspired by their Tasmanian roots, they capture the essence of the island's wilderness in everything they create, sharing the unspoiled beauty of their homeland with the world.

EXPERIENCE THE POWER OF NATURE W/

# TASMANIAN COLD CLIMATE HONEY™

In today's busy world, true wellness comes from the simplicity of nature. Tasmanian Cold Climate Honey is your natural way to find balance and vitality.

#### **Pure and Natural from Tasmania**

Gathered from pristine landscapes where bees forage on native tea tree and blue gum eucalyptus, this honey reflects the purity of its Tasmanian origins.

#### **Wellness Made Simple**

Rich in antioxidants, vitamins, and minerals, our honey is an easy addition to your day that supports your wellbeing and helps you feel your best.

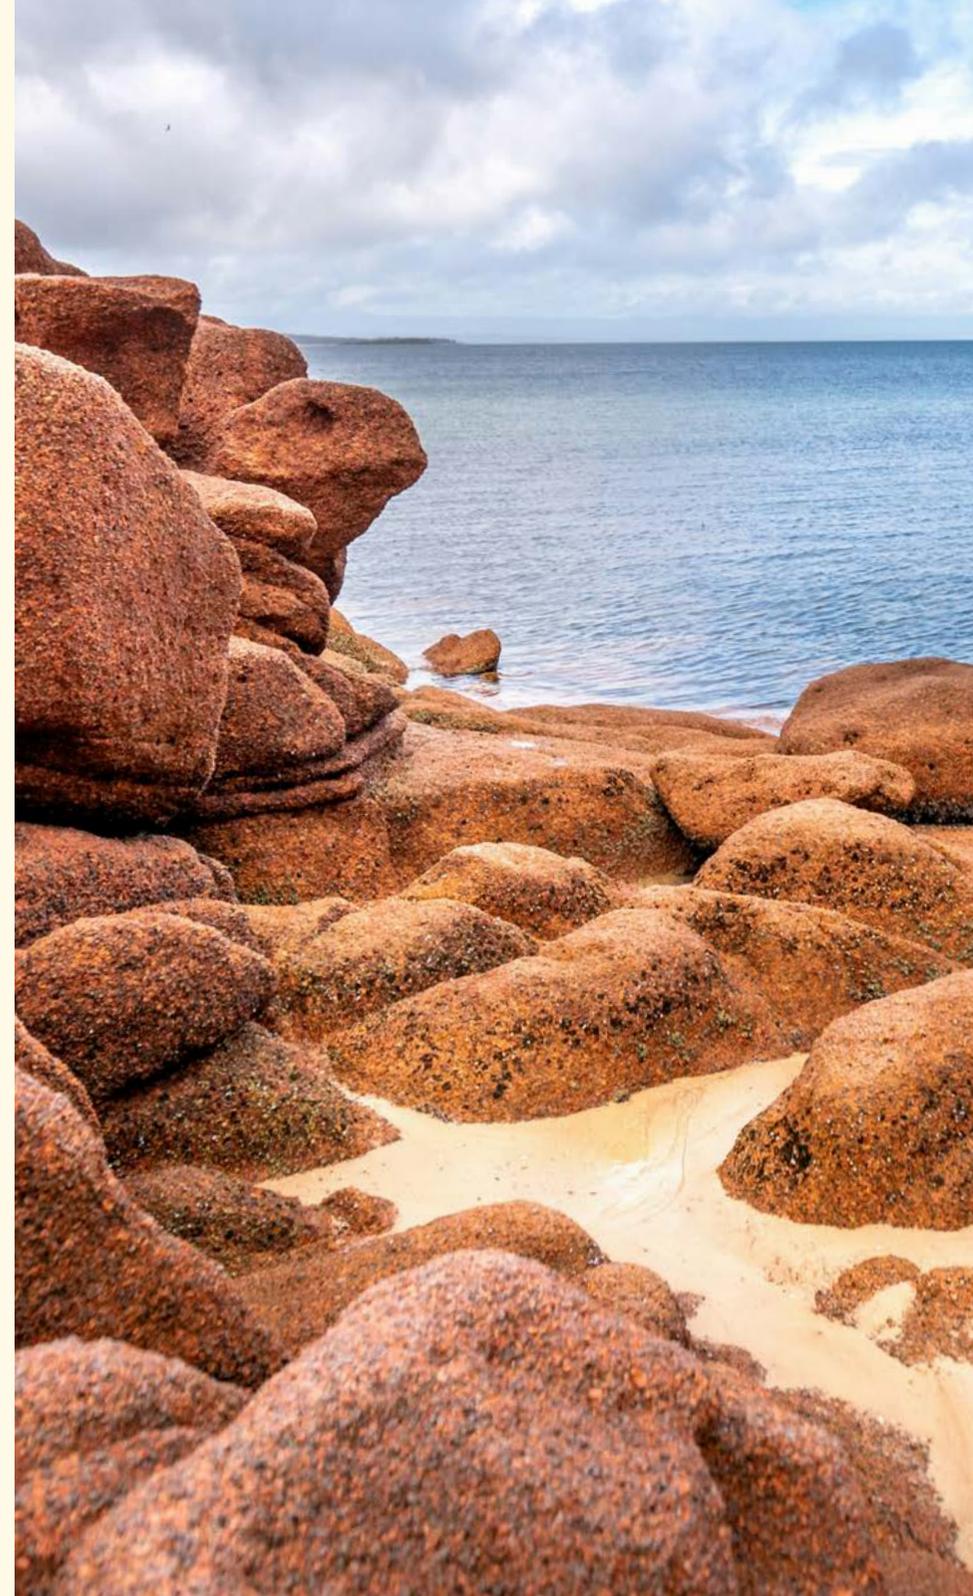

#### **A Commitment to Care**

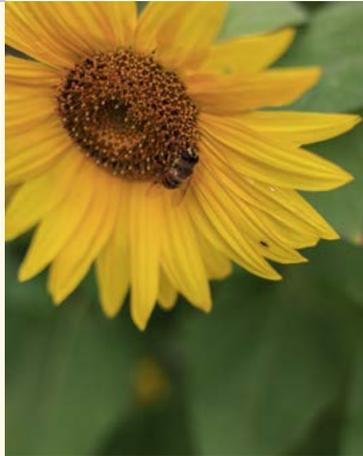

Produced sustainably by dedicated beekeepers, this honey protects both bee populations and the natural environment for future generations.

#### **Nature's Nourishment in Every Spoon**

With every sachet, you're enjoying a product grounded in care, connection, and the beauty of Tasmania's untouched wilderness.

Start a healthier, more balanced lifestyle with Tasmanian Cold Climate Honey™.

OUR PROMISE TO YOU

# COMMITMENT TO QUALITY & CERTIFICATIONS

## Commitment to Quality and Certifications

Our production facility adheres to the highest industry standards, ensuring premium quality and safety for every product. We operate under strict HACCP regulations and are proud to hold the following accreditations:

- Australian Manuka Honey Association
- Australian Certified Organic
- ISO Accredited
- HACCP Certified by Quality Assurance Services
- GMP Accredited
- FDA Approved

## Trusted Independent Verification

Storm + India rely on Independent Analytical Laboratory Services, an accredited leader in import and export food testing, to provide advanced, independent laboratory analysis. By working closely with accredited laboratories, we ensure all scientific testing is conducted with precision, meeting mandatory certification requirements and exceeding industry standards.

## Rigorous Testing for Purity and Authenticity

Our Tasmanian Cold Climate Honey and Manuka Honey are meticulously and independently tested in collaboration with an Australian University, in accordance with the strict regulations of the Australian Manuka Honey Association. Every batch is analyzed to confirm its naturally occurring levels of methylglyoxal (MGO) and dihydroxyacetone (DHA), ensuring the honey is 100% Australian-produced.

QUALITY & EFFICACY

# EXPECT MORE FROM YOUR HONEY

Enhance your daily wellness routine with delicious Tasmanian Cold Climate Honey, expertly infused with functional botanicals, fruits and adaptogens to provide calm, immunity, gut and skin support. Each unique single-serve sachet creates an easy daily dose.

### Pure Formulations

Each formulation is made with real honey, premium extracts and botanicals. No added sugar, artificial or natural flavours and preservatives.

# SIMPLE FOOD AS NATURE INTENDED

## PURE AUSTRALIAN MĀNUKA 100+MGO HONEY

Harvested from the native Tea Tree of Australia, this honey holds a deep connection to tradition. Valued by Indigenous Australians, it is renowned for its remarkable medicinal properties that support overall health and well-being and is rich in antioxidants, vitamins and minerals

Storm+India honey comes from bees that gather nectar from the native Mānuka blossoms. The unique MGO (Methylglyoxal) naturally forms in the nectar, giving the honey its powerful health benefits. This natural compound is known for its antibacterial properties and is a key reason why Mānuka honey is so highly prized.

## BLACKCURRANT POWDER

A traditional remedy turned modern superfood, New Zealand blackcurrants are rich in Vitamin C, a potent antioxidant that supports children's overall health and vitality.

## & SUPERFOOD ACEROLA CHERRY

This Brazilian "super cherry" is a powerhouse of Vitamin C, offering exceptional antioxidant support to promote children's health.

DAILY ESSENTIALS
