

CICUN JUICE SODA POP

"Every drop is the essence of nature"

Cicun uses natural spring water and pure fruit juice as the core of its products. We are committed to crafting innovative beverages that are both healthy and refreshing. Our brand philosophy is built on three core values: natural purity, premium quality, and social responsibility.

Beyond the product itself, Cicun prioritizes environmental sustainability and community development. From sourcing water to packaging, and from production to distribution, every step reflects our commitment to eco-friendly and sustainable practices.

PRODUCTION CAPACITY AND TECHNOLOGY

Factory Strength

Advanced technology: our factory is equipped with state-of-the-art production lines, so as to ensure the quality and safety of products in every process.

Quality certification: we have passed the ISO9001 quality management system certification and HACCP food safety management certification.

Eco-friendly Production

Cicun factory uses green energy to reduce carbon emissions in the production process and optimizes water resource utilization to protect the natural environment.

SOCIAL RESPONSIBILITY COMMITMENT

From every drop of water to every responsibility, Cicun promises to repay the society and the environment with practical actions.

Contribution to the Community

Cicun has created a lot of employment opportunities in water source communities to help improve the living standards of local residents.

Cicun supports local education and environmental protection programs to contribute to future sustainable development.

Sustainable Development Practice

Carbon neutrality goal: to gradually achieve carbon neutrality in the whole chain from production to distribution.

Circular economy: to make full use of recyclable packaging, and support consumers to engage in recycling activities.

Morality and Fairness

Cicun adheres to the principle of fair trade and builds a harmonious and transparent business relationship with suppliers and partners.
