Messages to Purchasers		Our company was founded in 1831 as a miso shop that is a purveyor to the head temple, Eihei-ji Temple. We place great emphasis on employee training, based on the philosophy of "feeling together, talking together, knowing together, working together, and growing together." All of our miso is made using domestically sourced ingredients, and we continue to use traditional natural fermentation methods. We also actively engage in a variety of social contribution activities, such as hosting miso-making workshops for local children and women's groups, and accepting interns from junior and senior high school students to help them understand the importance of craftsmanship.
