

MOYURUHA SPARKLING

もゆるは®スパークリング

The world's first sparkling cider made from Japanese maple-derived extract.

The product brings a new flavor and excitement to the market.

Served in a champagne glass it conveys a high-class feeling through its carbonic acid and beautiful color gradation.

Anthocyanin is said to be good for eye care, anti-aging, and anti-metabolic syndrome.

Features

New colour
Very pleasant taste
Contains polyphenols and anthocyanins from Japanese maple
No artificial flavoring or colouring agent
Made purely from our own ingredients
The anthocyanins extracted from Japanese maple are reported to affect health positively
The sparkling drink with its elegant colour is particularly appealing when served in a Champagne flute
Suitable for restaurants, bars or as a welcome drink
Works well as a cocktail ingredient, adding a Japanese flavor
