

WHERE THE GLACIER MEETS THE GLASS

AT BRIDGELAND DISTILLERY, WE CRAFT SPIRITS ROOTED IN TRADITION AND EMBOLDENED IN INNOVATION.

Our whisky speaks clearly of its terroir, with grains traced back to specific Alberta farmers fields, labelled on each bottle; they are Canada's first and only 100% Craft Malt Certified distillery. A vibrant wine program enriches our casks, delivering nuanced port-style wine and brandy crafted from hand selected grapes. Fed by the glacial waters of the Rockies, every batch carries the essence of place.

At the heart of our distillery stands Louise, our copper pot still. Inspired by centuries of distilling tradition and perfected by our custom coil, she refines each batch into a lighter and purer expression of the grains and grapes. The spirits mature in new and carefully selected once-used barrels, where they ebb and flow in the rhythm of Calgary's ever-changing climate.

With each sip, uncover tradition thoughtfully reimagined, innovation deliciously revealed, and the unmistakable character of a place we proudly call home.

PROUDLY DISTILLED  CANADA

GLENBOW SINGLE MALT WHISKY

BOTTLE SIZE: 500 ML | ABV: 48.3%

Coming from a single distillery via a single malt house, sourced from a single field of a single farm. This barley comes from field NE4-37-27-W4M at Hamill farm and has been malted at Red Shed Malting in Penhold, Alberta. Bow Glacier Water, premium ingredients married with our passion is where this whisky begins.

100% CANADIAN ROCKY MOUNTAIN MALTED BARLEY

BRIDGELAND SINGLE BLEND WHISKY

BOTTLE SIZE: 500 ML | ABV: 45.5%

Single Blend Whisky is a rare breed: an exceptional combination of our most desired whiskies, all distilled at one single facility, Bridgeland Distillery. We blend our malt and grain whiskies together from casks with exquisite quality, character and flavour. They have been distilled, barreled and aged separately.

AN EXCEPTIONAL WHISKY FOR EVERY CELEBRATION!

MOSCATO BRANDY

BOTTLE SIZE: 500 ML | ABV: 46%

Bridgeland Distillery is changing the way the world thinks about brandy by making single-varietal brandy from high-quality wine grapes. Brandy is essentially distilled wine, and while over 99% of the world's brandy is made from a blend of grapes not intended to make a quality wine, Bridgeland Distillery chose to make theirs differently. Freshly pressed Moscato grapes arrive in Bridgeland where our wine fermentation is started immediately! Fermentation is conducted at chilled temperatures for 4-6 weeks to preserve the most of the Moscato Signature aroma and flavours!

100% CALIFORNIA MOSCATO GRAPES
