Annual Sales		FY2025 3,078,607,770yen		Numbers of Employees Currently 33 members as of January 2026	
Name of Representative		Shinichiro Kiyofuji			
Messages to Purchasers		Kinko Town, Kagoshima Prefecture, is a rural town of great nature with a population of just over 6,000 people, kind-hearted residents, and evergreen forests. The tea leaves are grown in a cultivation environment that is just as it should be, scattered over the hill land area at an altitude of 500 meters above sea level from the warm Kinko Bay. We are striving to develop and market new products by opening a business office in September 2022, hoping to deliver tea grown in this natural environment to both domestic and overseas markets.

■ Selling Points of the production process

Kinko Town has the earliest new tea harvest in mainland Japan.

The soil in the tea fields is prepared with fermented manure mixed with special compost and thoroughly cared for to improve air permeability between the tea plants.

Currently, it is grown on 18 hectares in Kinko Town,Kagoshima.

Annual harvest: 19.5 tons of first-picked tea,
14.5 tons of second-picked tea,
13.5 tons of third-picked tea,
3.5 tons of fourth-picked tea,
27.0 tons of Autumn/winter picked tea, total 78 tons
