TASTY
JUICY
NUTRITIVE
REFRESHING

Apricot (*prunus armeniaca*) and **Peach** (*Prunus persica*) are members of the Rose family and distinguished by their velvety skin.

The apricots are thought to be native of Armenia and the peach originated in China, from where they were brought to regions along the Silk Road.

From the 1950s onwards both trees are the mainstays of the agricultural exports in Greece.

APRICOT

PEACH

Yellow to orange color
 Intense fruity taste
 Several nutrients that promote good health
Harvest period: 15.6 -10.7

ONE OF THE LARGEST PRESERVED FRUIT EXPORTERS IN GREECE

INTERCOMM FOODS S.A., founded in 1990, is located in the low Thessalian district of Larissa, in Central Greece and is one of the leading Greek exports companies. The company has strong experience in PRIVATE LABEL products, while developing in parallel its main brand DELPHI.

The company's headquarters, warehouse and production facilities cover an area of approximately 160.000m².

There are two factories divisions, the OLIVE factory and the FRUIT factory.

In 1999, the company performed a large investment in the field of olives, with modern installations and state-of-the-art equipment. Through this investment, we have succeeded to be a leader olive processing company in Greece, with the highest standards, gaining more and more the recognition of the table olives market worldwide.

Intercomm is also a leader in ASEPTIC fruit, supplying peach and apricot to top Clients all over the world and satisfying all quality requirements.

Aseptic Packing

We process peach and apricot fruit pieces in bulk aseptic packs without the use of preservatives. All fruits are carefully handpicked and delivered to our aseptic production lines.

Aseptics are semi finished products for industrial use. Our clients are jams producers, baby food industry, fruit preparators (for yogurt production, pastries etc), soft drinks (like smoothies) or peach and apricot juices with small pieces of fruits.

Industrial Clients

- Jam Producers
- Fruit Preparation Processors
- Juice Factories
- Yogurt Factories
- Baby Food Factories
