■ Selling Points of the production process

<p>Aurion has a unique and close cooperation with organic and biodynamic farmers. Today we cooperate with 40 Danish farmers supplying us with grain. We are experts on Nordic and ancient grains. Aurion's cultivation rules are uncompromising and stricter than the general cultivation rules. No pesticides of any kind are allowed. No additives or starch are applied in the production. Thus Aurion's products are 100% free from and clean label - unique products on the Danish market with uncompromising standards.</p>
