

nutworks™

Bringing premium Australian macadamia

NUTS TO THE WORLD SINCE 1996

Situated in the heart of Australia's macadamia nut growing region, Nutworks began as a macadamia processing facility in 1996.

In fact, the DNA of the first macadamia tree was traced back to an area close to our Yandina and Cooroy processing facilities.

We are proud to have developed a reputation for bringing the highest quality macadamia nuts to the world, commencing our exporting business in 2012.

Nutworks has long been one of Australia's premier macadamia nut processing plants and in more recent times is building a global reputation for irresistibly delicious and innovative macadamia nut products.

We source local ingredients from farmers we know and partner with those we trust to bring the farm to your home in a sustainable and eco-friendly manner. We are constantly seeking out partners in our supply chain who are innovating with us on the journey to a sustainable future.

Salty, spicy and sweet... our Gourmet by Nutworks range combines complementary flavours with the creamy goodness of macadamia nuts.

Using premium macadamias only, these packs showcase everything from unique international taste experiences such as Rosemary & Sea Salt, Wasabi, and Salted Chilli, to homegrown favourites such as Roasted Garlic and Manuka Honey.

Our Gourmet range is available as **200g** resealable pouches and **75g** snack bags, with a limited selection available in **350g** and **750g** resealable sharing packs.

easy crack macadamias

Our premium macadamias are carefully dry roasted in their shells to create that perfect crunch. Lightly roasted in shell, our roast salt and vanilla macadamias have their flavour locked in.

Nutworks easy crack macadamias have a slit over the centre of the nut, with a special key being provided inside the pack. Simply insert the key into the nutshell and twist to reveal a delicious treat unlike any other. Take these on your camping trip to share and use the shells in the fireplace!

Easy crack flavours are available in 200g & 500g resealable pouches.
