[Caution]

- *Please do not use in the dishwasher or dryer.
 - *Please refrain from using hard sponges or scrubbing.
 - *Please refrain from soaking chopsticks after meals.
 - *Chopsticks are consumables, so peeling of the paint is unavoidable.
 - *Because they are handmade, each product will have subtle differences.
 - *The color of the actual product may differ slightly from the image.
- *Yashiro chopsticks are completely different from traditional chopsticks in terms of the manufacturing methods and techniques used, from the selection of materials to the processing of the base, painting, decoration, and finishing.
The connection between the handle and the tip of the chopsticks is beautifully accented by two exposed gold rings.
This construction incorporates proprietary technology and components. Furthermore, the joint where the top and bottom join requires high precision, with even the slightest misalignment unacceptable. This is because the human hand can detect even a difference of 0.1 mm.
Weighing approximately 20g, these chopsticks are the same weight as regular chopsticks, with a focus on ease of use.
Each pair is meticulously crafted with expert skill to ensure a satisfying product for seasoned chopstick users.

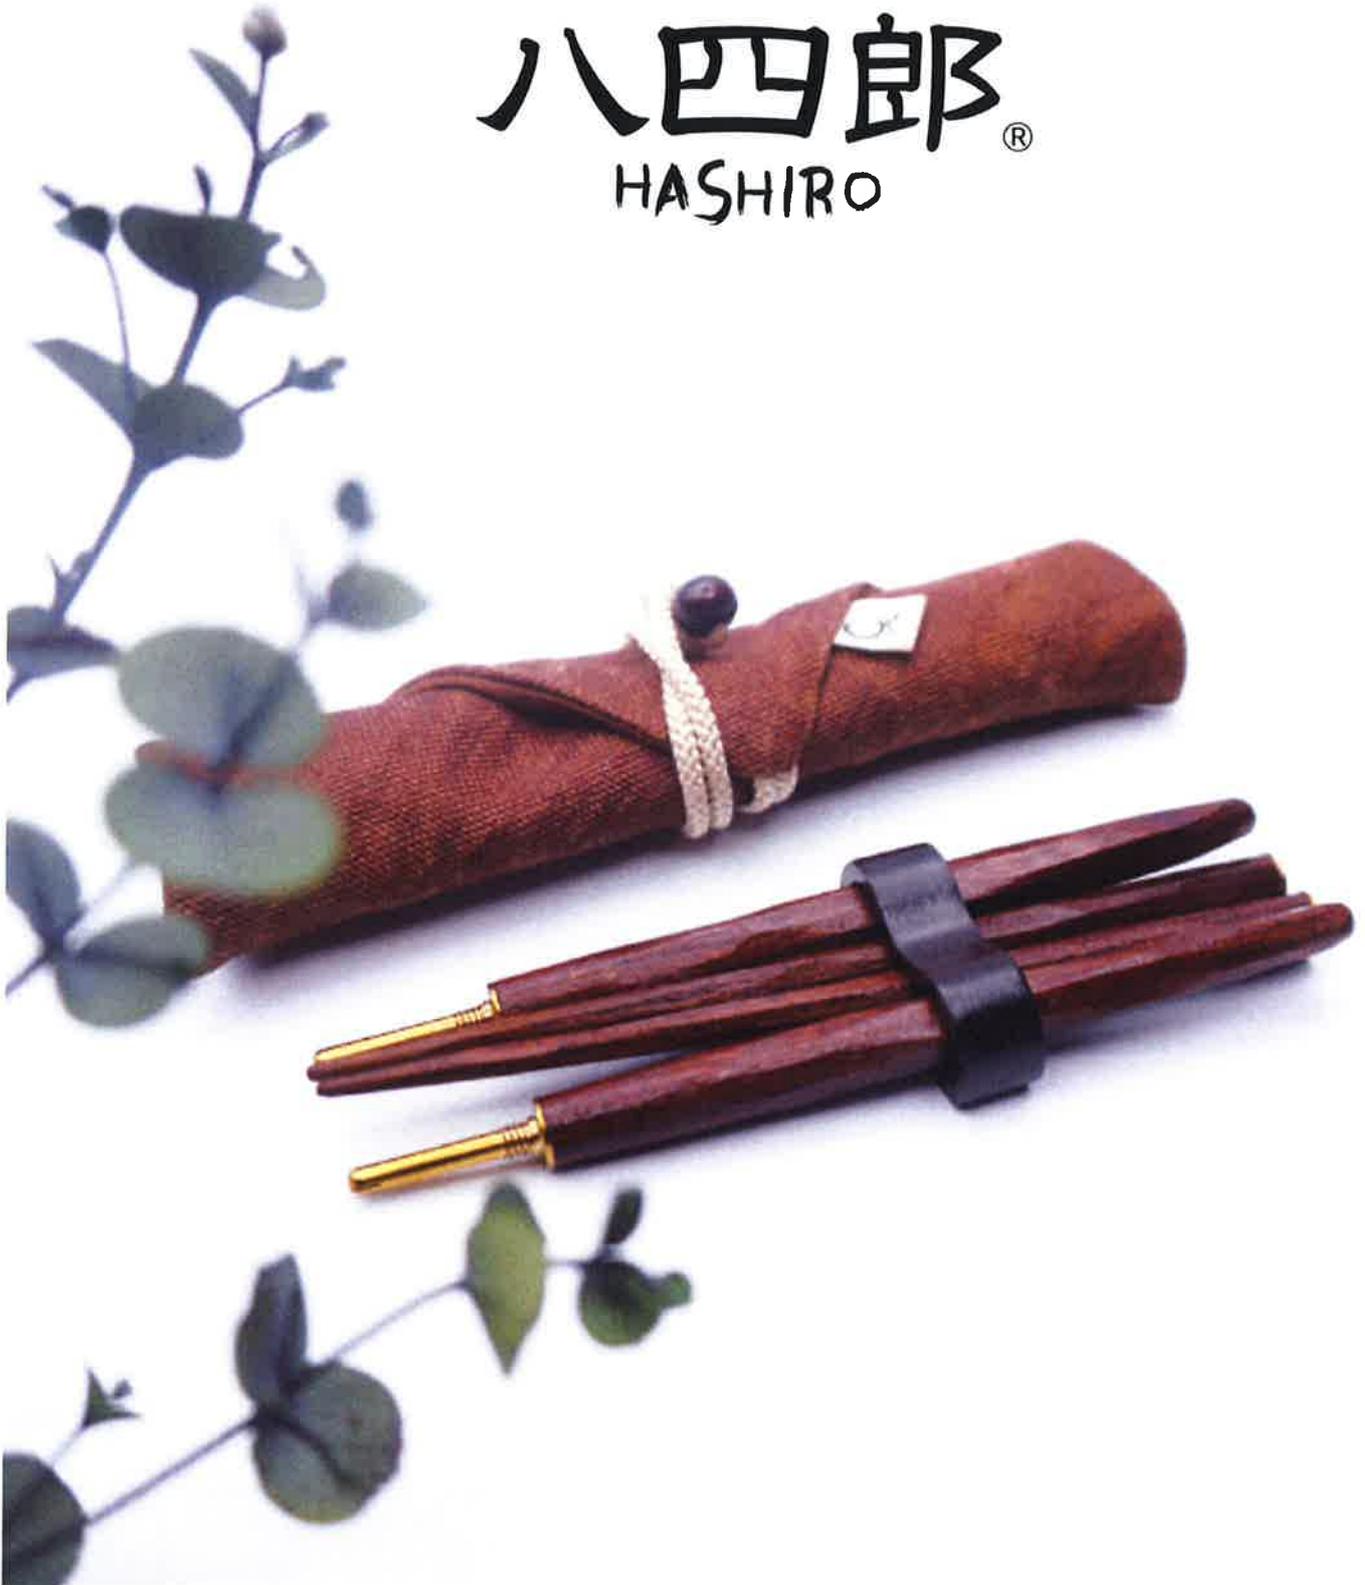

It has also been selected as a gift for past international summits:

- July 2007 / 34th G8 Summit (Hokkaido Toyako Summit)
- May 2016 / 42nd G8 Summit (Mie Prefecture Ise Shima Summit)
- June 2019 / 14th G20 Summit (G20 Osaka Summit).
