## Dishwasher safe

These dishwasher-safe chopsticks feature a natural lacquer finish that feels smooth on the palate, made possible by Hyozaemon's unique manufacturing process.

Chopstick tips are constantly used, like rolling pins. They can also be accidentally bitten and easily damaged.

Taking all these conditions into consideration, even dishwasher-safe chopsticks are finished with virgin lacquer, which does not contain harmful substances such as endocrine disruptors, for the tips that go into the mouth.

### ❖ Personalize your chopsticks to make them even more special

. While dishwasher-safe chopsticks can be personalized, they are not dishwasher safe.

This pair of chopsticks features a subtle sparkle of mother-of-pearl inlay in the shape of cherry blossom petals.

This is a new color of the ever-selling "Moon Drop Cherry Blossom" product, popular with people of all ages and genders.

Hyozaemon's dishwasher-safe chopsticks.

Most dishwasher-safe chopsticks on the market are designed to be resistant to boiling water, and are finished with synthetic paint all the way to the tips.

Hyozaemon's dishwasher-safe chopsticks are finished with virgin lacquer, which is free of endocrine disruptors.

Using a proprietary manufacturing process, these chopsticks feature a polished lacquer finish that provides a smooth feel in the mouth, unlike dry lacquer chopstick tips.
